From the very beginning of Putin's reign,
I found out he was a cold blooded dictator with huge anachronistic desire to bring
back Soviet Union Empire, like a mini-Napoleon.

I saw the very painful Ukrainian efforts to bring democracy to the country against
Putin since its independence.

My wife, Diana taught me about Ukrainian history like Holodomor which I hadn't heard
before.

So when Putin started invading Donbas and Crimea in 2014, we started donating small
money to her friends in Ukraine to support Ukraine soldiers.

After the full scale of invasion of Putin in Feb 22nd in 2022, we decided to support
Ukraine.

We came up with the idea of the drink "Slave
Ukraine".

We have been selling this drink for ¥400 and we donate 50% of the sales.

We bought tourniquets SAM and tactical CAT G-7, chest seals,
ChitoSAMtm 100 a high-performance hemolytic and drones
in Japan and send them to Ukraine with big help from Mr. Taras Raduka.
